

ALLENTOWN GIVES BACK TO THE AALAS FOUNDATION

*Industry Leading Housing Provider Initiates Regular Program of
Corporate Contribution to Worthwhile Research Foundation*

Allentown, NJ – November 17, 2008 – Allentown, Inc., the global leader in research animal housing, today announced its regular and ongoing program of donating to the AALAS Foundation based upon attendance to its annual Open House events at AALAS National Meetings. Already a corporate contributor at the Supporter level, this new program has supplemented the company's traditional contributions by an excess of \$14,000 over the past two years.

“We wanted to make a difference,” said Michael A. Coiro, Sr., founder and CEO of Allentown. “And providing regular, substantial funds to help further the work of such an important organization is clearly the best way in which to do just that. Also, basing our donations on the number of attendees to our Open House is a great way to get AALAS members involved, to show them that they have a stake in what we're trying to do, and that they can make a significant difference by helping us help the Foundation.”

“We appreciate Allentown's support,” said Ann Turner, Executive Director of AALAS & the AALAS Foundation. “The contributions we've received, and will receive, from Allentown help to support vital educational outreach about the essential role of responsible laboratory animal care and use in science to advance human and animal health.”

Allentown has been engaged in this program for the past two years and plans to continue it indefinitely.
